## Summary

I am on the lookout for a full time, permanent, freelance opportunity as a Software Engineer, in the Computer Software and Information Technology and Services sectors. I recently graduated with a Bachelor's degree in Software Engineering. I have experience working in the IT sector by way of an internship which has helped me develop technical capabilities in software development. I have consistently proven my ability to meet deadlines and achieve project objectives, solve mission-critical problems and prioritize crucial tasks while maintaining the high standards expected of my role. I am currently seeking a position in an established IT firm to further my career goals.
